Shape Detection

User Manual

Author: Tridhaman Batra Walia

Acknowledgements

- A small vote of thanks for all who have helped me in this journey of App Development – my parents, Mentors,Mr. Ken, Group Members, Friends, Sites etc.

About me

- I’m a Tech Geek with 21st Century Superpowers 💪. I have been coding since Grade 3 and this is my first time doing AI using Python!

My Internship Journey with Clevered

- I have loved my internship till now! It has taught me a lot about the real world.

About my app

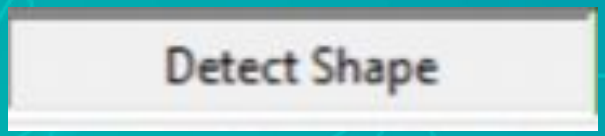
- I have made this app so it can be an interactive way to make pre-schoolers learn about tech as well as shapes.

How do I use the App?

Upload File Button

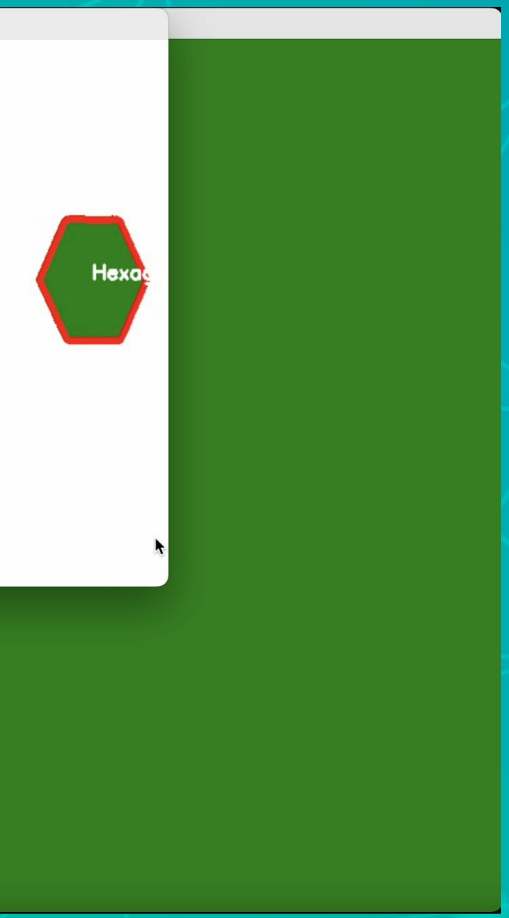
- As soon as the app loads you can upload the file.

Detect Shape



- It will instantly detect what shapes are there after the file is uploaded using the “Upload file” button.

Frontend



Contact Person

- Please reach out to me at tridhaman.2005@gmail.com for any questions/ concerns/ suggestions on the App

Thank you!
